a. Accessioning

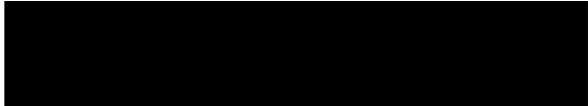

The Center received 5 cubic feet of the Polygraph Interview File from the Security Office. It is anticipated that approximately 100 cubic feet of these records will be received in staggered shipments.

The first shipment of the Official Personnel Folder Files was received from the Personnel Office. There were 25 cubic feet of these records received to be retained for 60 years.

b. Reference

Two jobs retired by OO/Contact have been recalled by that office to be repacked. The records will be inserted in envelopes and re-boxed, therefore, the Center will be able to service the envelope instead of the containers. These containers were previously marked "open by OO/Contact only".

The large request for NIS to be sent to Army is approximately 75 percent complete. This request will call for an estimated 175 cubic feet of material.
